5. Notes:

5.1. General:

- a. Asset Management Fees are charged monthly and are reflected in a reduction in the value of the unit price of the Investment Portfolio, and are charged on the value of the assets in the Investment Portfolio in question.
- b. **RiY (Reduction in Yield):** Refers to a RiY calculation using an annual administration fee of 0.50% (Excl. VAT), the highest possible initial and annual service and advice fee. The figure includes a performance fee levied on the underlying funds, if applicable. This amount assumes that the fund return is the same as that of its benchmark, as disclosed in the relevant fund fact sheets produced by the investment manager in question. The actual performance fee could be higher or lower depending on the performance of the underlying fund. The performance fee is specific to the fund and is also disclosed in the investment manager fund fact sheets.
- c. **Effect of inflation:** The gross investment return will depend on financial market conditions and the rate of inflation during the policy term. Inflation has a major impact on investment returns, and in general higher inflation leads to higher investment returns and lower inflation leads to lower investment returns. Real rates of return (the excess of the investment return over the inflation rate) give a more meaningful indication of how the investment has performed.
- d. **Effect of Taxation:** Depending on the type of policy, insurance companies pay different rates of tax on investment returns. The effective tax rates may also be different between insurance companies, based on their level of expenses. All benefits paid out under a policy are net of tax and there are thus no further tax obligations for the policyholder.
- e. **Return after expenses:** The RiY shows the extent to which the return on the assets will be eroded due to expenses charged against the policy. The assumed gross investment return of 10% used to calculate the return after expenses shown in the table is not guaranteed, but merely used to illustrate the impact of expenses. The actual investment return earned will depend on the gross investment return earned on the assets and the extent to which this return is reduced by taxation and expenses.
- f. *Asset Swap Fees displayed are charged monthly in arrears and are reflected in the unit price.
- g. **High Water Mark: Please refer to the relevant Asset Manager for more information on the High Water Mark.
- h. The Investment Portfolios listed above trade on business days only. A business day is any day other than a Saturday, Sunday or South African public holiday.
- i. Unit Trust funds trade on a daily basis on business days.
- j. Notice and dealing periods are set by the asset manager of the fund in question. If you have arranged an alternative date to that of the standard date to process your particular transaction, authorisation of such is required by Hollard Investments, in writing from the asset manager. Hollard Investments will process all trades in line with the standard notice and dealing periods stated herein, unless otherwise notified. Hollard will not be held liable for any losses the client may experience in the event that the expectation was for an alternative dealing date and no authorisation was obtained from the relevant asset manager and given to Hollard prior to trade.
- k. On daily traded funds, all trade instructions received by Hollard by 12pm daily will be processed for trade by T+2. All instructions received after 12pm will be processed for trade on T+3. Monthly traded hedge fund pricing for all trades will be confirmed as near to the end of the month following the trade date as pricing is dependent on the asset manager in question and is not within the control of Hollard.

5.2. Important information on Hedge Funds:

- a. Hedge fund managers must register their funds as Hedge Fund collective investment schemes or Unit Trusts under the Collective Investment Schemes Control Act ("CISCA") and comply with these regulations as required by National Treasury. CISCA is the main legislation that governs the South African Unit Trust Industry. The regulations are intended to provide a greater level of protection, transparency and certainty for investors. Each South African Hedge Fund must register as a Hedge Fund CIS, or Unit Trust. The change does not affect Hedge Funds which are domiciled offshore.
- b. The legislation allows for two categories of Hedge Funds: a Retail Investor Hedge Fund (RIHF), and a Qualified Investor Hedge Fund (QIHF). Each Hedge Fund will register as one of these categories. The classification of the Fund(s) you are invested in is denoted in the fund name in the table above.
- c. A Retail Fund (RIHF) is intended to be marketed to a broader retail market. As such these funds are subject to more stringent legislation regarding transacting frequency, levels of leverage, underlying investment instruments and risk management, amongst other things.
- d. A Qualified Fund (QIHF) is intended for a more technically astute investor and is subject to less stringent limitations. Qualified Investors or their Financial Advisors should have demonstrable knowledge and experience which enables them to assess the merits and risks of a Qualified Hedge Fund investment.
- e. If you wish to place a new investment in a Qualified Investor Hedge Fund, you and/or your Financial Advisor will be required to sign a declaration confirming that you and/or your Financial Advisor are in a position to assess the merits and risks of the investment. This declaration will be available with the relevant Hollard instruction forms.

5.3. Personal Share Portfolios (PSP):

- a. PSP's will only be traded once segregated accounts have been opened at the respective stockbroker.
- b. Should you invest into a PSP and another investment portfolio option, your application will only be processed once the PSP account has been opened, which can take up 5 business days.
- c. A minimum investment amount of R1 million is applicable for investment into PSPs. Certain portfolio managers may apply a higher minimum, as stipulated in the table above.
- d. An investment in a PSP will be charged an additional Annual Administration fee of 0.20% per annum excl. VAT over and above the Annual Administration fee specified in the investment quotation.

5.4. Melville Douglas Dedicated Personal Share Portfolio Fees:

Over R50 million	2.00%

5.5. Annual Administration Fee

- a. Hollard Investments will levy an annual administration fee per policy according to the fee scale below. This fee may differ in certain circumstances and it is important to review the fees disclosed on an investment quotation provided to you prior to investing in the Hollard Linked Endowment.
- b. Please note: A different fee may apply to policies taken out prior to July 2018.
- c. 0.50% of the value of the pooled Investment Portfolio (Share Portfolios and Hedge Funds) may be held in cash to facilitate the deduction of annual fees. This cash portion is incorporated into the daily unit price of the Investment Portfolio, where applicable and as such will not reflect on your Investment Account. We reserve the right to amend these fees at Hollard Life's sole discretion. You will receive prior written notice in the event of a change.
- d. Should you change your Financial Advisor the annual administration fees which you are charged may be altered.
