

Standard Rates

14 Aug 2019

Q: What is the Standard Rate?

A: The Standard Rate is based on our historical claims data

Q: Why do you use the Standard Rate to reimburse my claims?

A: Up until December 2013, the South African Veterinary Council published the 'Guideline of Tariffs'. Vets have since been able to set pricing as they deem necessary. In order for us to provide a fair claims reimbursement to all our clients, irrespective of which vet they go to, we now utilise a Standard Rate.

NOTE:

- These Standard Rates apply to Accident and Illness claims only.
- This list excludes Medicines & Injectable Drugs and In- and Out-of-Theatre materials which are reimbursed at the rate charged by your vet subject to the Treatment Annual Payout.
- These rates are subject to change at any time without prior notice.
